

Careers

The dataset contains three different sets of data:

- Profile
- Career (exams "taken")
- Booked exams (not yet taken at the time of the export)

You can ignore the top level JSON key `esito`, which is an internal system state info.

Also, boolean unfortunately might be represented in different ways. For example, `true` might be written as `1`, `"1"`, `"Y"`, `"S"`, `"SI"`, `"YES"` or `"T"`.

Brief glossary:

- **program**: also known as "degree course" ( "Corso di laurea")
- **didactic module**: a teaching is divided in one or more didactic modules
- **call**: a professor can create one or more "calls". The student should book a reservation inside a call for an exam to take it. ( "Appello")
- **act**: is a formal act that the professor signs. Each act contains one or more calls, and zero or more students with their associated score.

Profile

- `accessoPrenotazione`: indicates whether the student can make new reservations. It's `true` unless the student is not enrolled, or he/she is enrolled in a program which doesn't require reservations (e.g. some PhDs)
- `accessoPrenotazioneNote`: an optional message about reservations (when `accessoPrenotazione` is `false`)
- `annoAccaAtt`: unknown
- `annoAccaCorsi`: academic year of the current program
- `annoCorso`: program year (`1` is the first year of the program)
- `annoDiNascita`: year of birth
- `cittadinanza`: Citizenship
- `cittadinanzaEn`: Citizenship, written in English
- `codCittadinanza`: Citizenship code
- `codCorso`: program code (see <https://corsidilaurea.uniroma1.it>)
- `creditiTotali`: total number of CFU / ECTS for the program (note that this field might be `0` or `null` if the program doesn't specify the number of CFU)
- `erasmus`: if the student is Erasmus (incoming)
- `facolta`: faculty name for the program
- `flagIdentificato`: whether the student was identified using the picture he/she uploaded in Infostud (identification is mandatory for remote exams)
- `isErasmus`: it should be the same as `erasmus`
- `isMedicina`: whether the student is in "Medicina" kind of programs
- `iscritto`: whether the student is enrolled
- `laureaItaFlag`: unknown
- `luogoDiNascita`: place of birth (municipality)
- `mailConfermata`: whether the personal e-mail was confirmed
- `nazioneNascita`: State of birth
- `nomeCorso`: program name
- `primaIscr`: the first academic year for the student (e.g. the academic year in which he/she enrolled)
- `sex`: sex
- `tipoCorso`: type of the program code. The meaning of the code is unknown
- `tipoIscrizione`: whether the student is enrolled "IN CORSO" (normally) or "FUORI CORSO" (meaning that he/she is enrolled in a year after the normal duration of the program)
- `tipoStudente`: whether the student is:
 - `1`: ex-509
 - `2`: DM-270 with study plan
 - `3` (or others): DM-270 without study plan
 - `null`: not enrolled
- `ultIscr`: last enrollment (i.e. the last academic year when he/she paid taxes)

Exams booked

- `SiglaModuloDidattico`: didactic module code

- annoAcca : academic year for the exam session, expressed using the ending year (i.e. 2020/2021 is written as 2021)
- canale : exam channel
- codAppe : call code
- codCorsoStud : program code
- codIdenVerb : act code
- crediti : CFU / ECTS
- dataAppe : call date
- dataFinePrenotazione and dataInizioPrenotazione : range of dates in which the student can make reservations
- dataSeduta : date of the exam, if available
- dataprenotazione : booking date
- descCorsoStud : program description
- descrizione : exam name
- docente : professor name
- facolta : exam/program faculty
- modalitaSvolgimentoList : always null
- note : exam notes, if any
- numeroPrenotazione : booking number (from 1)
- questionario : always false
- ssd : SSD ("Settore scientifico disciplinare") for an exam
- tipoPren : always null

Exams taken

- annoAcca : academic year for the exam session, expressed using the ending year (i.e. 2020/2021 is written as 2021)
- annualita : unknown
- autorizzato : whether the exams was authorized by the student office
- certificato : whether the student office has checked and confirmed this exam
- cfu : CFU / ECTS
- codiCarr : unknown
- codiStatEsam : unknown
- codiceCorsoInsegnamento : always null
- codiceInsegnamento : teaching code
- codiceModuloDidattico : always null
- data : when the exam was taken (meaning that: the date specified by the professor in the act)
- dataDate : same as above, expressed in ISO format
- descrizione : exam name
- esito
 - nominale : whether the score is not a number
 - valoreNominale : score as string (e.g. 29 / 30 , 30 e lode / 30 , IDONEO)
 - valoreNonNominale : score as integer (e.g. 29 , 31). It's null when nominale is true
- questionarioCompilato : always false
- ssd : SSD ("Settore scientifico disciplinare") for an exam
- superamento : whether the exam was passed or not
